

A TRADITION OF ACADEMIC EXCELLENCE

Rahn Elementary is committed to providing daily instruction in the core subjects of reading, writing, math, social studies and science. Students demonstrate continuous growth in all curricular areas. Arts and technology are integrated with core subjects. This supports the school's goal for students to reach their fullest potential in all academic, social, physical and creative pursuits.

COME FOR A VISIT!

Rahn Elementary
School of Arts &
Technology enhances
learning for all students
and places an emphasis on
educating the whole child.

Students engage in critical
thinking and problem solving
skills while learning about the
world around them. Teachers
encourage student creativity,
curiosity and imagination
through the arts and
technology.

These innovative learning
experiences empower
students to discover their
own unique talents and
abilities.

RAHN ELEMENTARY SCHOOL OF ARTS & TECHNOLOGY

Imagine. Discover. Innovate.

Rahn Elementary School of Arts & Technology provides a standards-based academic education that uses arts and technology to enhance learning, foster creativity and promote independent thinking. Students become critical thinkers, problem solvers and life-long learners in a global community.

THE ARTS

- In vocal music, students sing, play, move, listen, read, create, improvise, write and discuss.
- In visual arts, students explore elements of color, line, shape, form, texture, rhythm and perspective.
- In band, students experience whole band rehearsals and small group lessons along with school and community performances.
- Students are involved in an annual production that includes song, dance and theater and has become a proud school tradition.

TECHNOLOGY & MEDIA

- Teaching, learning and demonstrating knowledge and creativity through podcasting, video and digital cameras, word processing, photo journalism, social media, web programs and other multi-media tools and activities.
- Live daily broadcasts of the Rahn TV3 News, produced and anchored by students.
- Science and Technology Fair showcases emerging scientists and their projects along with student work in the areas that integrate arts and technology.

Rahn also offers:

- Enrichment program for students in K-6.
- Leadership opportunities on Student Council and CARE Club.
- Active families, community residents and PTO members volunteered 6,000 hours last year.
- All day, every day kindergarten at reduced prices.
- Extended day learning opportunities include chess club, choir, band, theater and community education courses.
- Staff members who are caring, child-centered and dedicated to providing a high-quality education for all students.

Inquire. Interact. Design. Communicate.
